THE NETWORK
OF CHOICE FOR
PERFORMANCE

We believe
in **quality,**
professionalism,
transparency,
teamwork and
customer service.

OUR NETWORK IS **HIGHLY EFFICIENT**

POLE is a network of carriers **specialising in pallet** distribution, pooling their expertise to transport your goods throughout the country. **Committed, collaborative, service-minded,** they all share the same values and goals: customer satisfaction.

POLE 's exacting quality levels can meet your needs with **maximum efficiency and minimum environmental impact.** It's a real guarantee of reliability enabling you to move forward with us in complete confidence and security.

CLOSE-KNIT PROFESSIONALS ON THE ROAD

The POLE network is a group of SMEs specialising in road transport, established in 1997. We are the **French leader in pallet distribution**.

Our high standards demand **reliability and guaranteed deadlines**. A total of 57 members and 4 logistics platforms allows you to optimise your shipments. We are responsive and flexible, working very closely together to transport your goods. We offer a more efficient, **more reliable and more environmentally friendly service**.

A UNIQUE APPROACH TO TRANSPORTING YOUR GOODS

Our members work collaboratively. They attach equal importance to their direct customers and their colleagues. All our customers really appreciate this unrivalled commitment to quality!

Pooled resources

Our members have 4 transit platforms to **consolidate and streamline their flow of goods**. This pooling of resources allows us to optimise transport plans by reducing **empty miles**. We can therefore offer quality service at competitive prices!

Reliable, efficient traceability

Our organisation is based on the **free flow of information** between each carrier. We have embedded IT solutions to better manage monitoring and organisation of our flow of goods. So, our transport has increased **efficiency and reliability**, and you never lose sight of your products!

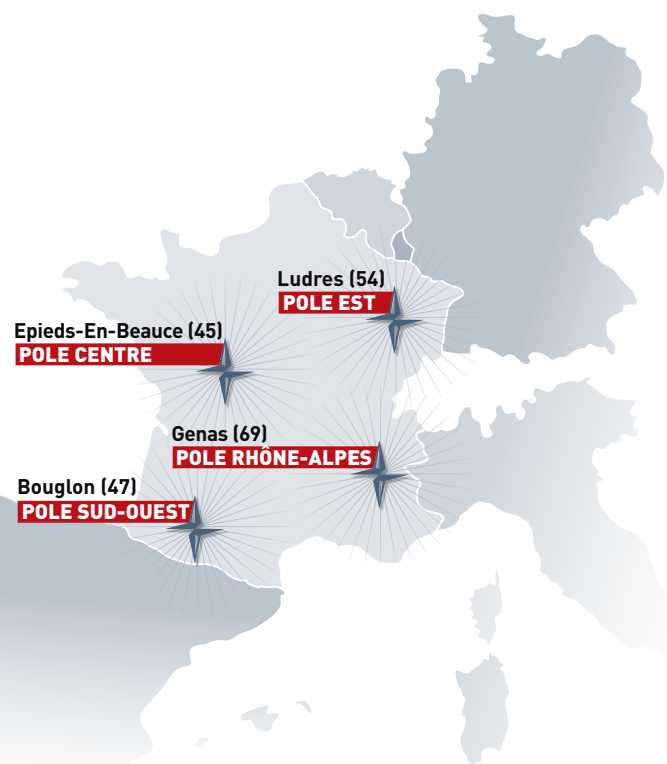

A sustainable, responsible approach

Our collective commitment to the environment is the natural result of operating as a network. **By optimising our flows, we limit our emissions** to the bare minimum. Social solidarity is engraved in our network's DNA..

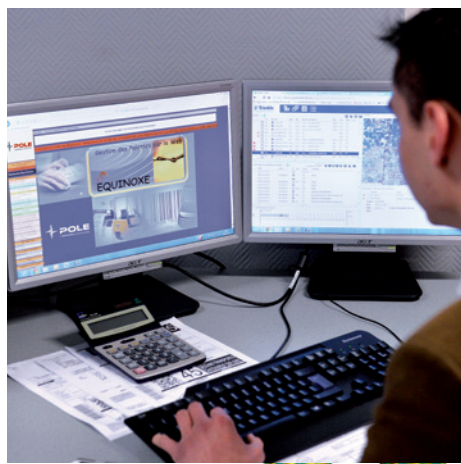

POLE has a partnership with Tred Union, which allows us **to pool our purchases** and make use of our **complementary skills** to give you the best service possible.

4 REGIONAL PLATFORMS for optimal flow efficiency

OUR **SUSTAINABILITY** COMMITMENTS

Economic

Our network is constantly growing to ensure **better coverage of the country, and ever more efficient transport**. In this way our members' experience and contacts benefit everyone, creating a real **virtuous circle of economic growth**.

Community

We all share the same **ethical values** of good working conditions, our drivers' quality of life and access to regular training, and we select our members according to very strict criteria. As a group of French SMEs, we also lay claim to a real **'Made in France' service**.

Environmental

Our carriers are trained in eco-driving and our strategy **to optimise the flow of goods** also contributes to this process. In fact, by consolidating deliveries, we send fewer lorries onto the roads and they travel fewer miles and therefore emit **less CO₂ and fewer greenhouse gas emissions** every year.

OUR **MEMBERS**

From 8 founder members, the network has grown to 55 members and continues to grow, fulfilling your transportation needs to the best of our ability.

55 French SMEs pooling the expertise of their teams and their business to respond quickly to your needs and ensure **high-quality, efficient service**.
